

Spacekids celebrates the 40th anniversary of the first moon landing

8 June 2009

On the 20th July 1969 Neil Armstrong became the first human ever to set foot on another world, when the Apollo 11 mission completed NASA's ambitious challenge to land a man on the moon.

To celebrate this exciting anniversary, Spacekids is pleased to introduce a new section on the website featuring articles, videos and audio clips, providing lots of interesting information about this event. The section is created especially for children up to about 12 years old.

The Apollo 11 section can be found at:

<http://www.spacekids.co.uk/apollo11/>

Our other space-related information pages are available at:
