

## Spacekids launches a history of space timeline

**4 October 2008**

In order to mark the 2008 World Space Week, Spacekids is excited to announce the launch of a short history of space exploration.

It is aimed at children of age four and up, and it is hoped that it will help with countless homework projects.

The timeline sets out the most important events in the history of space exploration, from the first fruit fly astronauts, right up to the planned moon missions of 2020.

The timeline is available from the Spacekids website homepage, at [www.spacekids.co.uk](http://www.spacekids.co.uk).
